

## How my standard connects

**A**fter reviewing Connecting the Standards on the previous page, assign the remaining six standards among table groups.

Have participants use this form to create their own set of questions that demonstrate the connectivity of their standard with the others. (As a rule of thumb, allow 10 minutes for groups of four to six participants, adding two minutes for each additional participant per group.)

Once time has elapsed, debrief which standards were easier to make connections to and which were more difficult. Ask for volunteers to share.
