

Reflection questions

1. Have we committed to developing and using plans and tools to facilitate meaningful monitoring?
2. Have we committed to providing timely and accurate information about monitoring to participating schools?
3. Have we committed to assisting participating schools in identifying and collecting data that can be used in decision making?
4. How are we using federal funds to support evidence-based activities and stakeholder engagement?
5. Are we committed to using the monitoring process to signal to educators the importance of continuous learning and improvement?
