## Reflection questions

- 1. How visible are the five strategies in your state's monitoring and review of district strategic plans?
- 2. How could your state embed these five strategies into your annual monitoring and review process?
- 3. Based on district data, which of your districts have one or more of these strategies as bright spots that could be highlighted and scaled?
- 4. Based on district data, which of your districts have one or more of these strategies as challenges that could be supported with targeted resources?
- 5. What additional feedback and data could be collected from districts for implementing, integrating, and sustaining high-quality instructional materials and aligned professional learning?
- 6. How will the analysis of evidence inform the design of next year's review and monitoring plan for all districts?
