SEA Tool 1.3 Launching the vision

SEAs can use this tool to develop or refine a vision statement based on the identification of key statewide challenges and feedback from SEA Tools 1.1 and 1.2 to drive the development or refinement of the state's professional learning system.

1) **Developing or refining a vision statement**

   Enter your state's current vision statement for professional learning below. If your state does not currently have one, leave this space blank.

   _____

   _____

   _____

   Based on state-level data and stakeholder feedback, what key problem(s) of practice or challenges is your state trying to solve with professional learning? List those here:

   _____

   _____

   _____

   Enter the ideas and feedback generated from SEA Tools 1.1 and 1.2 below:

   _____

   _____

   _____

2) With the information collected above, how might you develop or revise your state's vision statement for professional learning such that it aligns with both the challenges of your state and a greater focus on content-based professional learning and high-quality instructional materials?
