Shifting culture requires learning together

Organizational culture shifts as a result of meaningful collaboration among educators, so where does that leave you when people feel their time is not valued and their needs are not being met? Professional learning that is relevant to the needs of educators and results in meaningful impact is the process through which a thriving culture of learning and shared responsibility is built.

But how do you bring educators back to the table ready to learn and engage?

Because professional learning is only effective when educators actually engage, learn, and implement new behaviors, Learning Forward partners with educational organizations at all levels to improve understanding of the professional learning needs of educators and to design and implement collaborative learning that

will bring them back to the table and foster the individual and collective efficacy that improves student learning.
