## THROUGH THE LENS

OF LEARNING FORWARD'S STANDARDS FOR PROFESSIONAL LEARNING

Standards for Professional Learning describe the content, processes, and conditions of high-quality learning that makes a difference for students and educators. They are organized in a framework of three interconnected categories. Understanding each category and each standard can help learning leaders build systemic professional learning. To help you deepen your understanding, this tool provides reflection questions that draw on articles from this issue of *The Learning Professional* and connect to standards from each category. You can use these questions to guide your reading of the articles or you can use them in conversations with colleagues — for example, during professional learning communities, observations, or planning discussions.

The page numbers after each question will take you to the article that corresponds to the question.

## HOW TO IMPLEMENT STANDARDS TO ACCELERATE LEARNING

- When leaders prioritize their own growth, what is the impact on their **leadership**? How does it benefit their schools, students, and colleagues? (p. 52)
- As school and system leaders allocate precious time resources for student and adult learning, how can summer options be seamlessly integrated into a coherent plan? (p. 40)
