

**Using the Logic Model to Plan for Progress Monitoring**

|                                 | <b>Outcome</b> | <b>Evaluation Question</b> | <b>Data to Collect</b> | <b>Evidence</b> |
|---------------------------------|----------------|----------------------------|------------------------|-----------------|
| Initial Learning Outcome        |                |                            |                        |                 |
| Intermediate Learning Outcome 1 |                |                            |                        |                 |
| Intermediate Learning Outcome 2 |                |                            |                        |                 |
| Intermediate Learning Outcome 3 |                |                            |                        |                 |
| Final Learning Outcome          |                |                            |                        |                 |
