

Theory of change and logic model

Use these tools to develop a shared vision and goals to help your organization move from its current condition to its desired outcome, and define the essential steps and possible challenges that may arise.

THEORY OF CHANGE

Learning strategies reflect a thoughtful, grounded theory of change. The strategies answer the questions:

- How will we get from where we are to where we want to be?
- What will it take for me and my leadership team to authentically incorporate our new learning into our everyday work?

Expected impact on my leadership, teacher practice, and student learning:

LOGIC MODEL

Principals set a logical pathway or model for accomplishing their goals by breaking their theory of change into checkpoints.

| 10 MONTHS FROM NOW | 7 MONTHS FROM NOW | 3 MONTHS FROM NOW | ESSENTIAL RESOURCES | INPUTS |
|---|--------------------|-------------------|---------------------|--------|
| Long-term outcomes (student achievement gains expected and shifts in teacher practices) | Intermediate goals | Short-term goals | | |
