THE learning conference.

Education leaders from around the world will gather to share professional learning expertise focused on creating and sustaining equity and excellence in teaching and learning every day.

Make connections and take home tools and strategies to understand and implement effective professional learning in classrooms, schools, and systems.

This year's theme is **Evidence into action**, which speaks to the importance of evidence-based practices and how Learning Forward bridges research and implementation to improve results for each student. Join us to learn the latest best practices for classrooms, teams, buildings, systems, and regions.
